The minutes of the last meeting were read and approved. The minutes of the Executive Committee on the Free Academy, were also read.

The annual reports of the Inspectors of Common Schools of the Tenth and Fifteenth wards, were presented and ordered on file.

Mr. Muzrier of common Schools.

Mr. Muzrier presented a communication from the school officers of the Seventh ward, nominating David Webb for the office of Trustee of Common Schools in the said ward. The following resolution was adopted:—

Resolved. That David Webb be, and he is hereby

appointed Trustee of Common Schools for the Soventh ward, in place of Jacob Baker, removed from THE MANHATTAN GAS COMPANY.

THE MANHATTAN GAS COMPANY.

The President laid before the Board a communication from William H Reuck, Principal of the Fifteenth ward evening school, as follows.

New York, Nov. 2, 1852.

Gentlemen:—On Thursday, the 28th uitimo, the Manhattan Gas Light Company very abruptly removed the metre from ward school No. 20, thereby depriving that public instruction of the light necessary to proceed. Upon inquiry I found the cause to be for the non-payment of a disputed gas bill, of two years standing, amounting to \$2.53. The bill I found to be for gas that was alleged to have been used in the school after it had been closed for the term as an evening school, and after due notice had been given to the company.

As they took a decided stand, and would not restore the gas until the bull was paid, rather than the public should suffer I have paid the \$2.53, and leave your honorable body to inquire into the justness of their demand.

I remain, respectfully yours,

ASSISTANT CLERKS, ETC. The Pressident reported that, under the resolution of the Board, authorizing the President and Clerk to make temporary arrangements for the transaction of the business in the Clerk's office, Mr. Thomas T. Bennett had been employed temporarily, at a salary of \$500 a year, and W. O. Bourne had been employed as reader, at a salary of \$50 a year. He also stated that, in the opinion of the President and Clerk, the salary of Robert S. Hart, the assistant in the office, should be increased to \$400 a year.

On motion of Mr. Canten, the arrangements entered into by the President and Clerk were approved, subject to the future action of this Board.

Mr. Stout offered the following resolution:

Resolved, That the salary of Robert S. Hart be increased to \$400, from the 10th of September last.

Mr Murphy moved to refer said resolution to the Committee on Salaries, which was lost. The motion was unanimously adopted.

The CLERK'S OFFICE—DEFAIL OF EXPENDITURES.

Mr. SAVAGE, from the Auditing Committee, presented a report in favor of paying sundry bills for the incidental expenses of the board. Adopted. Also, the following report of the accounts in the clerk's office:

To the Board of Education, the Auditing Committee. of the Board, authorizing the President and Clerk to

office:—
To the Board of Education, the Auditing Committee respectfully submit the following report on the accounts in the office of the clerk of this board: Your committee have examined the accounts of the Board of Education, as kept by the clerk, from the 14th day of December, 1851—the date of the last examination by the committee—to the 30th of Sep-tember, 1852, and they have carefully compared the rarious entries, appropriations, checks and vouchers. The books are neatly kept, and by a system which seems to be well adapted for recording the business of the department and exhibiting in detail the vari-sus items of expenditure on account of the schools.

ORGANIZATION OF THE GRAND JURY, AND CHARGE BY JURGE BERGE.

Nov. 4 — This Court, which, during the last reces, has been painted, and made to appear so mowhat cleaner than it has done for a long time, was opened this morning, seconding to adjournment, and the business of the present term commenced.

The calendar is light, presenting only forty-three new cases for the consideration of the Grand Jury. Of these, there were for assault and battery, with intent to kill, 5; mayhem, 1; robbery, first degree, 4; assault with a slung shot, 1; forgery, 1; burglary, 6; grand larceny, 21; receiving stolen goods, 1; obtaining goods under false pretences, 1; selling obscene books, 1; and keeping disorderly house, 2. From last term there remain indicted 19, of which 11 are capital cases, and therefore triable in the Court of Oyer and Terminer, which stands adjourned till Monday next. These are exclusive of bail cases.

The following gentlemen having answered to their names, were sworn as Grand Jurors, viz:

Judgo Beebe delivered the charge of the Court.
It was very brief, and almost confined to a recapitulation of the duties as originally imposed upon them by common law, and since more explicitly and definitely prescribed by statute. He observed that the institution originally, under a monarchical government, was ordained as a constitutional and salutary check against the encroachments of the crown on the liberty of the subject. In our form of government, kappily, no such check was required, and it behoved them to see that on the other hand the grand inquest was not perverted to a means of operations.

the liberty of the subject. In our form of government, kappily, no such check was required, and it behaved them to see that on the other hand the grand inquest was not perverted to a means of oppression on the citizens, by charging them with criminal offences on exparts statements, possibly made from sinister or malicious motives. With this view he would recommend great caution ere they indicted any one on their own motion. Where the matter had undergone a regular investigation before a magistrate, there was not, of course, the same danger of injustice being done. In calling attention to the election laws, as required by statute, the Judge took oscasion to allude to the all-absorbing topic of the late excitement, saying the time was one when they were especially called upon to inquire into any offence against those laws designed as the bulwarks of our constitutional liberties, by preserving the purity of the system of popular representation. With those remarks they were dismissed to their labors.

CHARGE OF FALSE PRETENCES—ACQUITTED

Samuel J. Proper, a respectable looking man, who was indicted in May term last, for obtaining certain goods of the firm of Rundle & Van Kleeck, grocers, to the value of \$5 (five dollars), in the previous month of March, by means of a fictitious check, and whose case has been several times called up and postponed, the recognizances on the last occasion having been forfeited, surrendered to take his trial. An array of counsel appeared for the defence, consisting of the Honorables F. A. Talmadge and Ambrose L. Jordan, H. G. Wheaton (late District Attorney of Albany), and Jonas B. Phillips, Esqrs. Their services, however, were little required, as Mr. Times B. Rundle, the only witness called to the stand, failed completely in his proof, not being able to remember, even, what the goods obtained were; and the prosecution was necessarily abandoned, and a verdict of not guilty rendered, under the direction of the Court.

Adjourned till this morning.

FINANCIAL AND COMMERCIAL.

THURSDAY, NOV. 4-6 P.M. The stock market opened and closed to day dull and depressed. The most active fancies in the list were Eric and Cumberland, but prices were not sustained. It looks now as though we were going to have for a time a heavy market, and that lower prices will rule. There will probably be exceptions, and speculation may take hold of some particular fancy, and carry it rapidly up: but that stocks generally will be neglected, and a depre-ciation be realized, there is, in our mind, very little doubt. At the first board, to day, Nioaragua Transit declined % per cent; Pennsylvania Coal Company. %; Harlem, %; Cumberland Coal Company. %; Eric Rail Long Island, 14. The movement in Canton has somewhat subsided, and the shorts in Long Island are taking in stock to deliver. This may keep things quiet for a time; and, as the bears strengthen themselves by closing up old securities, they will come forward more conddently, and make new ones. In other stocks there is very little doing. Eric Railroad is wonderfully sustained The amount of stock on the market is now much larger than last year at this time, and is daily increasing. Harlem is almost entirely neglected. Reading Railroad only comes out occasionally, in small lots: it is too much inflated to attract any but the most desperate speculators. Railroad bonds have not been active for some time past. The immense amount of these securities issued within the past twelve months, have, it appears, found permanent resting places somewhere, and very few are forced upon the market

During the week embraced in this return the quarterly dividend payments were commenced in due course by the tank, and in this circumstance we have an explanation of the chief changes, which are numerically of considera. bie importance, including the decrease in the treasury deposits, private or other securities, and reserve of unemployed notes and coin, and the increase in the circulation, and other or private deposits. The price of gold at Paris, on the 22d of October, was about 1 per mille premium. (new tariff rate.) which, at the English mint price of £3 17s 10 %d per ounce for standard gold, gives an exchange of 25.195; and the exchange at Paris on London, at short, being 25 27 1/4. It fol. lows that gold is about 0.318 per cent dearer in Loudon than in Paris. The price of gold at Hamburg was 429-14 per mare, which at the English mint price of £3 17s. d. per ounce for standard gold gives an exchange of 19.7%; and the exchange of Hamburg on London, ag short, being 18 5%, it follows that gold is about 0.812 pe cent dearer in Hamburg than in London.

Commercial letters from Paris state that the greatest

activity prevails in every branch of trade. The orders received from the previnces and from foreign countries are so numerous that the manufacturers have great diffi-culty in executing them. This activity extends also to the departments. At Lyons and St. Eticane the demand has improved so rapidly that the stocks of goods in the warehouses are unprecedentedly low, and quite inade-quate to meet the requirements of numerous buyers now the market from America and other countries Several new manufactories have recently been established in the Lyons district, and also in Aleace. The prices o cotton, silk, and other raw materials, have advanced, and will be followed by a corresponding increase in the value of the manufactured articles. This increased activity

has already been felt in the discount department of the Bank of France, where suring the last fortnight the amount of the bills discounted exceeded that of the last month by 25,000,000f. The retail trade of Paris has also

greatly improved. Country buyers have made large pur-chases of winter goods, and the sales made by the principal houses already very largely exceed those of the

cipal houses airsady very largely exceed those of the same period last year.

The London News of the 23d of October, saya—"The gold mining shares were again active to day, and prices showed an upward tendency, especially for colonial gold, Port Phillip, and Agua Frias. Ave Maria. Mariquita, Australian, Freshold, Yuba river, and Quarts Rock shares were also the turn dearer, and Nouveau Mondes firm. The market in its present aspect confirms the auticipation expressed by us some months back, that so soon as positive accounts should be received from any one of the staffs despatched to the scene of operations, notifying the actual position of affairs, a general demand would arise, and the entire market would asquire increased importance. At the present period, the improvement is not confined to the shares in the adventures that have received advices, but even extends to some of those that systematically hold back all information, and have long been at a heavy discount."

The latest circular of Mr. Moate, of London, relative to the movements in metals, says:—

South pig iron again shows an advance on last week's prices. At the commencement of this week, owing to the excitement which existed, the price ran up to 62s cash, which was realized; this high price, however, proved temporary, and the market has receded to a point 1s, 6d. to 2s per ton, above last week's rates; we quote to day, 58s, per ton cesh, 59s, three months open. Holders are looking for higher prices, which will no doubt be obtained. This market has steadily improved for the last two months. Bars and rails continue in full demand, and prices are 5s, per ton better. Bars £7 15s, in London; rails, £7 15s to £8 at the works. Staffordshire ron is scarce, and very steady in price. The late advances are fully maiatained. Spelter is without movement Prices are unaltered. Shoet sinc has been risen £2 per ton. Lead is in good request, and very firm. The plates are selling largely, and higher prices are expected.
